What's the Vet Art Project? Come & Find out!

Creative Arts Workshop For Veterans & Artists

FREE!

Monday, March 29th 2010

5:30-7:00 Witnessing Veterans Stories:

Coming home from military service begins the day a Soldier, Sailor or Marine returns to family and friends. This can be a challenging road with many readjustments to civilian life. Much will have changed during time of service. Stories are good ways to communicate knowledge, share history and connect us all.

7:00-8:00 Storytelling with Collage

In this workshop we will explore the use of collage to visually represent our personal experiences, stories and ideas connected to war, service, and the transition home. Feel free to bring personal items to include!

The Vet Art Project creates opportunities for veterans and family members to work in collaboration with artists from all disciplines to create new art about war and service for public performance and viewing. The program aims to support our veterans and family members, create stronger voices among our veterans, provide new opportunities for artists, offer a venue to hear the voices of our veterans and artists, and foster discussions about how war affects us all.
